Amateurs as well as professional scientists delight in and pore over **ROCKS & MINERALS**, which has published articles on mineralogy, geology, and paleontology since 1926. Regular departments explore important discoveries, minerals for the collector, microminerals, personalities in the field, media reviews, and coming events. Detailed lists of collecting opportunities in specific localities appear periodically, as do theme issues. Spectacular color photographs appear throughout each issue. **ROCKS & MINERALS** works with the Mineralogical Society of America to promote cooperation between collectors and professional mineralogists.

Green garnet on matrix, 11 x 7 cm. Khost, Paktia, Afghanistan. Find of 2016. Zeb Gul Mineralien, Germany.

Focusing on minerals from DR Congo,
recent finds and old classics! We go there to cherrypick the best
we see, sometimes unique worldclass specimens!
Several outstanding and rare specimens will be displayed and
offered for the first time!

We will be at the Munich Show!
