Russian Mineral Classics | Классические минералы России

Mineralogical Almanac, volume 16, issue 3, 2011. Moscow: Mineral-Almanac Ltd. 156 pages, 114 mineral photos, 5 maps, in English and Russian.

This issue of Mineralogical Almanac is photo album and contains images of classical mineral specimens from famous Russian localities of Urals, Kola Peninsula, Siberia and Far East. Ural Emerald Mines, Murzinka, Ilmeny, Lovozero, Khibiny, Dalnegorsk and many others are among them.

Full-page photos show 79 mineral specimens which comprise the top of Russian mineral world. The issue has been published on special occasion of 44th Denver Gem and Mineral Show-2011 devoted to Russian Minerals.
