Gerhard Wagner Fine Mineral Collection Coming Soon!

Collector's Edge Minerals is
proud to represent Gerhard
Wagner's extensive
worldwide mineral collection !

Gerhard not only assembled a
world famous tourmaline
collection, but also a fabulous
collection of aesthetically
beautiful worldwide
mineral species.

The 2016 Denver
Mineral Show will be the
«first release» of Gerhard's
worldwide specimens.

*Prepare to
be amazed!*

ROCKS & MINERALS

*For Everyone Interested in
Minerals, Rocks & Fossils*

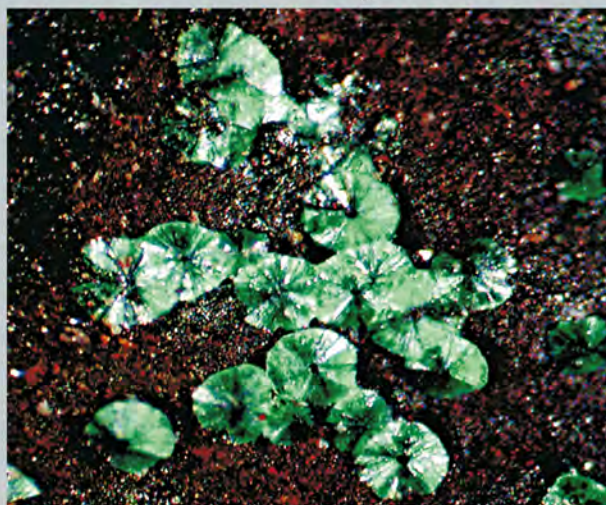

Taylor & Francis
Taylor & Francis Group

Amateurs as well as professional scientists delight in and pore over *Rocks & Minerals*, which has published articles on mineralogy, geology, and paleontology since 1926. Regular departments explore important discoveries, minerals for the collector, microminerals, personalities in the field, media reviews, and coming events. Detailed lists of collecting opportunities in specific localities appear periodically, as do theme issues. Spectacular color photographs appear throughout each issue.

Visit www.rocksandminerals.org for subscription details and further information about the magazine.

Rare Minerals

from the World Leader in Systematic Mineralogy

Eurekadumpite - Centennial Eureka Mine
Tintic District, Juab Co., Utah

Request our periodic lists by email: info@excaliburmineral.com
or browse our comprehensive websites for minerals and books
(www.excaliburmineral.com),
diamond specimens from many localities (www.diamondcrystals.net),
or subscribe to our popular monthly periodical,
Mineral News (www.mineralnews.com).
